

July 22, Josh and Esther: We are working our way through Spain to France and England and then Stanford. Spain we are finding delightful. Marvelous beaches on Mediterranean coast has us swimming 2-3 times a day in clear, warm water. Now we are in Madrid.

Yesterday we went to the bull-fights and enjoyed the color, the art and the sport. Josh, thanks very much for your note which arrived just before we left Pavia. I am pleased to be mentioned as a co-participant in demographic studies.
